- **LOCATION:** Lahore, Punjab, Pakistan.

MY BACKGROUND:

" Think Globally, Act Locally. "

Hello! 🙌 Let Me Begin with a **Question** – Have You Ever Felt the Need for **An Expert Who Focuses On (Deeply) Understanding What YOU Need**, Rather Than Bragging About Their Expertise? – If So, Look No Further!

My Name Is Umer – And **My Goal is To Make You Succeed in Your Goals**. Most People Find Me as a **Dynamic, Articulate & Smart-Working Individual**. Always Eager for A (Win-Win) Collaboration and To Take on New & Impactful Challenges. My **Work Mantra** is that **Every Detail Matters**. Driven by An Ever-Evolving Passion & Aspiration for The 🚀 **Digital Transformation**, I Am Blessed to Have Progressed as a **Multi-Dimensional Thinker, Worker & Learner** Across Several Industries (including I.T., Software, Robotics, Automotive & Automation) With **About 5+ Years** of Versatile Experience, A **Business & Marketing Acumen, A Diversified Skillset & Efficient Communication**.

☐ **CORE VALUES I THRIVE ON:**

- **Growth Mindset** (As Opposed to A Fixed Mindset.)
- Empathic and **Learn-It-All Thinking** (As Opposed to Know-It-All Thinking.)
- A **Sense-Of-Purpose** to Be Able to Meet the Un-Met, Un-Articulated Needs of The People.
- **Honesty** and Transparency in Life, At Work and Across A Company's Culture.
- Fostering an Ethos of **Innovation, Diversity** and **Progressive Thinking**.

☐ **THINGS I LOVE DOING (AND CAN HELP YOU WITH):**

- Prototyping, Creating, Enhancing & Managing End-to-End **Software Solutions** That Wow Clients & Consumers!
- **App, Service & New Product Development** across **Web, Desktop, Automation, Integration, A.I. & Data** spaces.
- Descriptive, Diagnostic, Predictive & Prescriptive **Data / Business Analytics** That Drive Efficient Action.
- **Writing** Meaningful & Impactful **Content, Articles, Blog Posts, Marketing Materials** and more.
- Leveraging Technology to help improve **Self-Awareness & Communicational Excellence** across People & Teams.

MY WORK HISTORY & PROFESSIONAL PERFORMANCE:

● **Technical Lead**

Oct 2019 – Present

Powersoft19 (Nineteen) (Pvt) Ltd.

Lahore, Pakistan

Developing, managing and empowering people, teams and companies with the Technologies that really help improve their lives. Making business processes easier, faster and better to achieve more, together!

- **Functional Areas:** Intelligent RPA, Data Analytics, AI, Machine Learning, Windows Apps, API Integration
- **Project Count:** 8 (Scoped, Developed and Managed)
- **Tech Stack:** ML.NET, C#, Python, UiPath Community & Enterprise based Bots, Amazon Textract & Amazon Comprehend Medical, AWS, Azure, WPF based App, WCF based Web Service, TCP Server, Microsoft 365 and more.

- Freelance Technical Writer** Mar 2020 – Aug 2020 (6 mt)
Amazon's Subsidiary - GetDotBot Lahore, Pakistan
 I ideate and write featured articles for **Discover.bot**, a resource website/community by Amazon for the AI developers and professional users alike that covers a wide range of topics related to chatbots & AI. Discover.bot is part of a broader **Amazon** project called **GetDotBot**, which provides tools to develop and publish bots with a ".bot" domain.
- Vice President, Engineering** Mar 2019 – Sep 2019 (7 mt)
Kaprix Consulting Lahore, Pakistan
 Digital workforce transformation through **Robotic Process Automation & Artificial Intelligence**. Delivering end-to-end digital enablement for companies and individuals through customer-obsessed innovative thinking. Streamlining and automating every process and operation ranging from KPIs through APIs.
- Process Automation Lead (RPA, DotNet)** Apr 2017 – Jul 2018 (1.4 yr)
AppsGenii Technologies (Pvt.) Ltd. Lahore, Pakistan
 I was assigned to be working in and around the ecosystem of **Accelirate, Inc.** (formerly known as *AutomateWork Inc.*) headquartered in **New Jersey, USA** which is a partner company of **AppsGenii Technologies**.
- Software Developer (.NET)** Oct 2016 – Apr 2017 (7 mt)
FiveRivers Technologies (Pvt.) Ltd. Lahore, Pakistan
 - Developing, designing & implementing scalable .NET-based Apps and Solutions.
 - Writing clean, readable and reusable C# Code and Libraries. Creating database schemas in SQL Server that represent and support business processes. Web Development using ASP.NET (MVC + WebForms), Web Services, JavaScript, SQL, EF, XML.
- I.T. Coordinator (ERP Development)** Nov 2015 – Apr 2016 (6 mt)
Porsche Pakistan – Performance Automotive Limited Lahore, Pakistan
 - Developed in-house ERP software modules: Interactive Asset Management, Aftersales Management
 - Architecting, Developing, Designing, Debugging, Implementing & Updating the ERP systems
 - Training end-users & assisting other staff to get familiar with existing and new IT solutions
- Award-Winning Freelancer / Independent Contractor** January 2016 – Present (5+ yr)
Upwork Inc. Worldwide
 Worked with clients looking for efficient solutions to their problems and went above-and-beyond their requirements with effective support.
